

Testing Steps for Dev Environment

6. Process Steps

[Note: Process Step has directly dependency on sub steps setup]

The screenshot displays the 'Process Step List' interface in the Finish Genius web application. The browser address bar shows the URL <https://dev.finishgenius.net/FinishingSteps/List>. The application header includes the 'FINISH GENIUS' logo, navigation links for 'Internal DPM', 'FG APP Support', 'Finishing Questions', and 'DPM Center', and a user profile for 'Hello, ashokkumar79892@gmail.com'. A sidebar on the left contains navigation options: Groups, Users, Photo Gallery, Equipment & Materi..., Formulas, Process Steps (highlighted), Process Schedules, Material Quantities, Pricing, and My Work. The main content area features a table with columns for '#', 'Group', 'Process Step Name', 'Industry Sector', and 'Actions'. The table lists several process steps, all under the 'Testing_15' group and 'Wood' industry sector. The 'Actions' column for each row includes 'Edit', 'Copy', and 'Documents' icons. At the bottom of the table, a pagination bar shows 'Showing 1 to 50 of 95 entries (filtered from 2,226 total entries)' and navigation links for 'Previous', '1', '2', and 'Next'. The footer of the application indicates '© AWFI 2023'.

#	Group	Process Step Name	Industry Sector	Actions
36468	Testing_15	AWFI TEMP/RH SENSOR #3	Wood	Edit Copy Documents
36467	Testing_15	AWFI TEMP/RH SENSOR #2	Wood	Edit Copy Documents
36463	Testing_15	AWFI TEMP/RH SENSOR	Wood	Edit Copy Documents
36460	Testing_15	Barrier Coat514	Wood	Edit Copy Documents
36459	Testing_15	Burger Boat Standard Acrylic Urethane 50 Sheen Topcoat Full Pore Fill	Wood	Edit Copy Documents
36458	Testing_15	Burger Boat Standard Scuff Sanding For Full Pore Fill Second Step	Wood	Edit Copy Documents

We can see process steps for each group

The screenshot shows the FINISH GENIUS web application interface. The top navigation bar includes links for Internal DPM, FG APP Support, Finishing Questions, DPM Center, and a user profile. The left sidebar contains a menu with options like Groups, Users, Photo Gallery, Equipment & Materials, Formulas, Process Steps (highlighted), Process Schedules, Material Quantities, Pricing, and My Work. The main content area displays the 'Process Step List' for the 'Testing_15' group. A search bar and a dropdown menu for 'Industry Sector' are visible. The table lists process steps with columns for Step Name, Industry Sector, and Actions (Edit, Copy, Documents). The steps shown are:

Step Name	Industry Sector	Actions
MP/RH SENSOR #3	Wood	Edit, Copy, Documents
MP/RH SENSOR #2	Wood	Edit, Copy, Documents
MP/RH SENSOR	Wood	Edit, Copy, Documents
36460 Testing_15 Barrier Coat514	Wood	Edit, Copy, Documents
36459 Testing_15 Burger Boat Standard Acrylic Urethane 50 Sheen Topcoat Full Pore Fill	Wood	Edit, Copy, Documents
36458 Testing_15 Burger Boat Standard Scuff Sanding For Full Pore Fill Second Step	Wood	Edit, Copy, Documents

Showing 1 to 50 of 95 entries (filtered from 2,226 total entries)

We can see process steps for each group as per Industry Sector

The screenshot shows the FINISH GENIUS web application interface, similar to the previous one, but with the 'Industry Sector' dropdown menu open and 'Aerospace' selected. The table lists process steps for the 'Aerospace' sector:

Step Name	Industry Sector	Actions
AWFI TEMP/RH S	Wood	Edit, Copy, Documents
AWFI TEMP/RH S	Wood	Edit, Copy, Documents
AWFI TEMP/RH SENSOR	Wood	Edit, Copy, Documents
Barrier Coat514	Wood	Edit, Copy, Documents
Burger Boat Standard Acrylic Urethane 50 Sheen Topcoat Full Pore Fill	Wood	Edit, Copy, Documents
Burger Boat Standard Scuff Sanding For Full Pore Fill Second Step	Wood	Edit, Copy, Documents

Showing 1 to 50 of 95 entries (filtered from 2,226 total entries)

1. Checking all the process steps are same in prod and dev environment

Process: Randomly checked 5 clients all the process steps are same in prod and dev

2. Industries for which we can create process steps are as follows

1. Aerospace
2. Automotive
3. Construction
4. Food
5. Heavy Manufacturing
6. Marine
7. Wood

The screenshot displays the 'Process Step List' interface in the Finish Genius Pro application. The interface includes a sidebar with navigation options like Groups, Users, Photo Gallery, Equipment & Materials, Formulas, Process Steps (highlighted), Process Schedules, Material Quantities, Pricing, and My Work. The main content area shows a table with columns for #, Group, Process Step Name, Industry Sector, and Actions. A dropdown menu is open for the 'Industry Sector' column, showing a list of industries: Aerospace, Automotive, Construction, Food, Heavy Manufacturing, Marine, and Wood. The 'Wood' option is selected. The table lists process steps for 'Testing_15' across different groups and process step numbers. The bottom of the screen shows a Windows taskbar with various application icons and a system clock indicating 11:15 PM on 9/16/2023.

#	Group	Process Step Name	Industry Sector	Actions
36468	Testing_15	AWFI TEMP/RH S	Wood	Edit Copy Documents
36467	Testing_15	AWFI TEMP/RH S	Wood	Edit Copy Documents
36463	Testing_15	AWFI TEMP/RH SENSOR	Wood	Edit Copy Documents
36460	Testing_15	Barrier Coat514	Wood	Edit Copy Documents
36459	Testing_15	Burger Boat Standard Acrylic Urethane 50 Sheen Topcoat Full Pore Fill	Wood	Edit Copy Documents
36458	Testing_15	Burger Boat Standard Scuff Sanding For Full Pore Fill Second Step	Wood	Edit Copy Documents

Showing 1 to 50 of 95 entries (filtered from 2,226 total entries)

3. Create New Process Steps

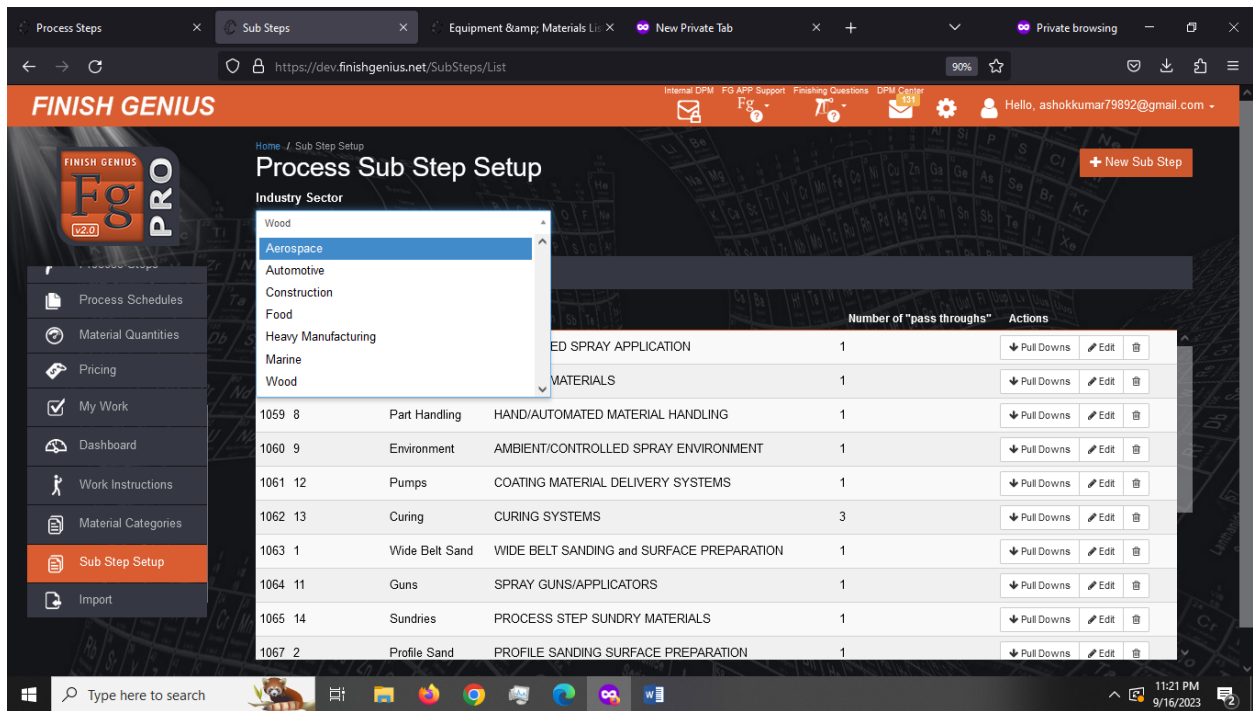

3.1 To create Process Steps we first need to create substeps then only we can create Process Steps. So lets first learn how to create substeps.

Step-1

The screenshot shows the 'Process Sub Step Setup' page in the Finish Genius Pro application. The page has a dark theme with a sidebar on the left containing navigation options: Process Schedules, Material Quantities, Pricing, My Work, Dashboard, Work Instructions, Material Categories, Sub Step Setup (highlighted with a blue arrow), and Import. The top navigation bar includes 'User' and 'Admin' buttons, with a blue arrow pointing to 'Admin'. The main content area displays a table of substeps with columns: #, Step Sequence, Short Name, Name, Number of "pass throughs", and Actions. The table lists 10 substeps, each with a unique ID, sequence number, short name, full name, and number of pass-throughs. The 'Actions' column for each row contains 'Pull Downs', 'Edit', and 'Delete' icons. A '+ New Sub Step' button is located in the top right corner. The bottom of the screen shows the Windows taskbar with the search bar and various application icons.

#	Step Sequence	Short Name	Name	Number of "pass throughs"	Actions
1057	7	Spray Auto	AUTOMATED SPRAY APPLICATION	1	↓ Pull Downs Edit
1058	10	Materials	COATING MATERIALS	1	↓ Pull Downs Edit
1059	8	Part Handling	HAND/AUTOMATED MATERIAL HANDLING	1	↓ Pull Downs Edit
1060	9	Environment	AMBIENT/CONTROLLED SPRAY ENVIRONMENT	1	↓ Pull Downs Edit
1061	12	Pumps	COATING MATERIAL DELIVERY SYSTEMS	1	↓ Pull Downs Edit
1062	13	Curing	CURING SYSTEMS	3	↓ Pull Downs Edit
1063	1	Wide Belt Sand	WIDE BELT SANDING and SURFACE PREPARATION	1	↓ Pull Downs Edit
1064	11	Guns	SPRAY GUNS/APPLICATORS	1	↓ Pull Downs Edit
1065	14	Sundries	PROCESS STEP SUNDRY MATERIALS	1	↓ Pull Downs Edit
1067	2	Profile Sand	PROFILE SANDING SURFACE PREPARATION	1	↓ Pull Downs Edit

Step-2 Select Industry. For testing purpose we are selecting Aerospace

Step-3 Click on New Sub Step

The screenshot shows the 'Process Sub Step Setup' page in the Finish Genius application. The page has a dark theme with a periodic table background. On the left is a sidebar with navigation options: Groups, Users, Photo Gallery, Equipment & Materials, Formulas, Process Steps, Process Schedules, Material Quantities, Pricing, and My Work. The main content area includes a 'Process Sub Step Setup' header, an 'Industry Sector' dropdown set to 'Aerospace', and tabs for 'User' and 'Admin'. Below these is a table with columns: #, Step Sequence, Short Name, Name, Number of "pass throughs", and Actions. The table is currently empty, displaying 'No data available in table'. A blue arrow points to an orange '+ New Sub Step' button located in the top right corner of the main content area. The browser's address bar shows 'https://dev.finishgenius.net/SubSteps/List#user'.

This screenshot shows the 'Create New Sub Step' modal form overlaid on the 'Process Sub Step Setup' page. The modal is titled 'Create New Sub Step' and contains the following fields: 'User Role' (a dropdown menu with 'User' selected), 'Name' (a text input field), 'Short Name' (a text input field), 'Sequence' (a text input field), 'Number of Pass Throughs' (a text input field), 'WebLink' (a text input field), and 'Instruction' (a larger text input area). The background page is dimmed, showing the same sidebar and table as the previous screenshot. The browser's address bar remains the same.

Step-4 You can use role as user or admin and create sub task as follows

Note: These Sub steps will be visible when we start creating Process Steps

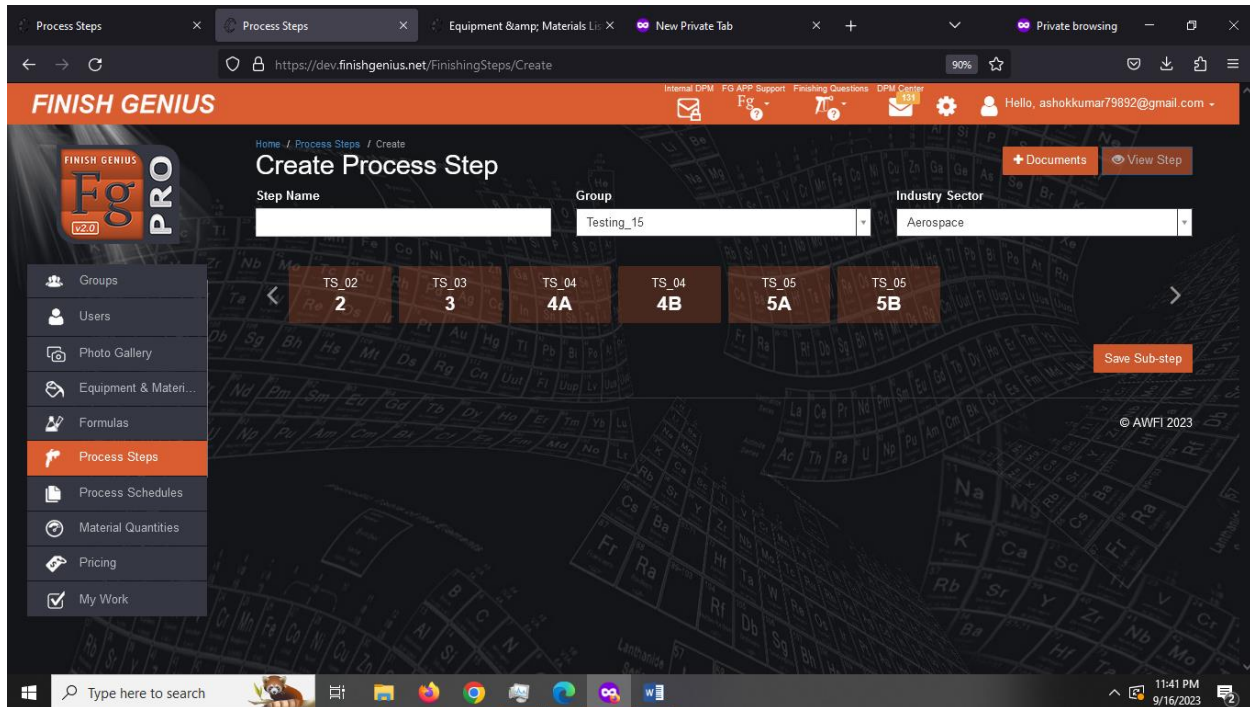

3.2 Create Process Steps

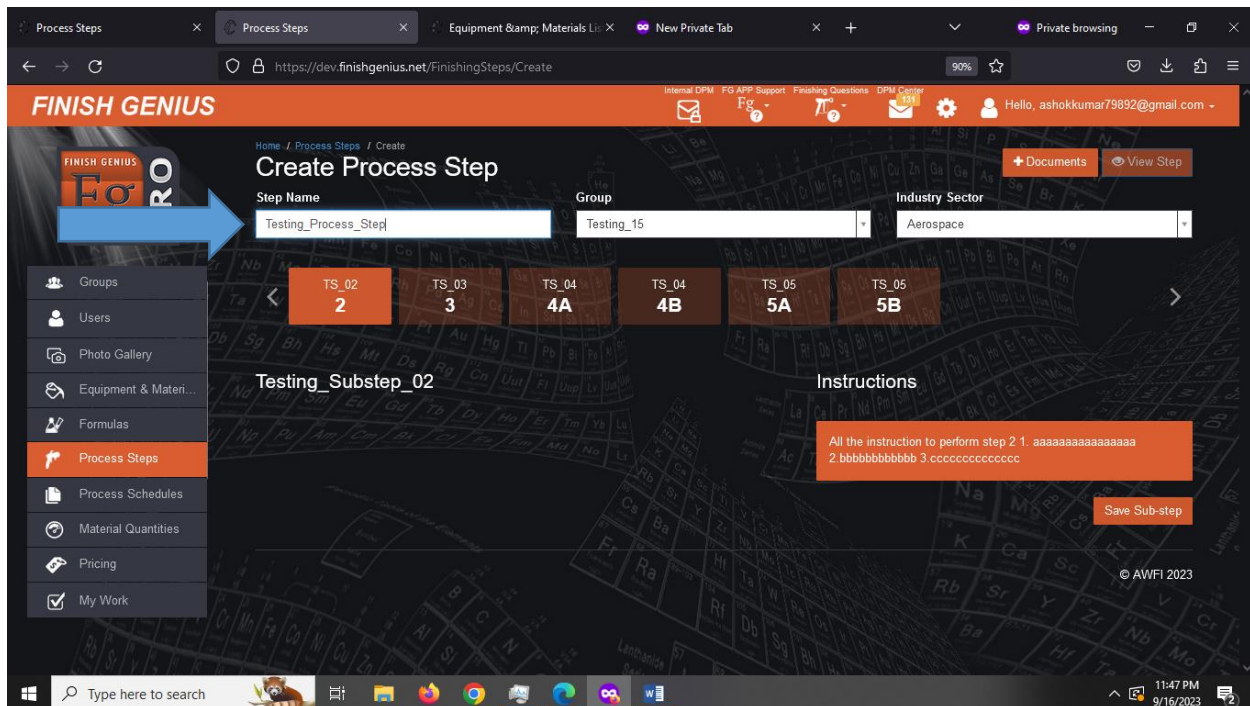

Step-1 Click on Create New

You will observe we are getting the steps created in sub steps here and now we can create PROCESS using this sub step

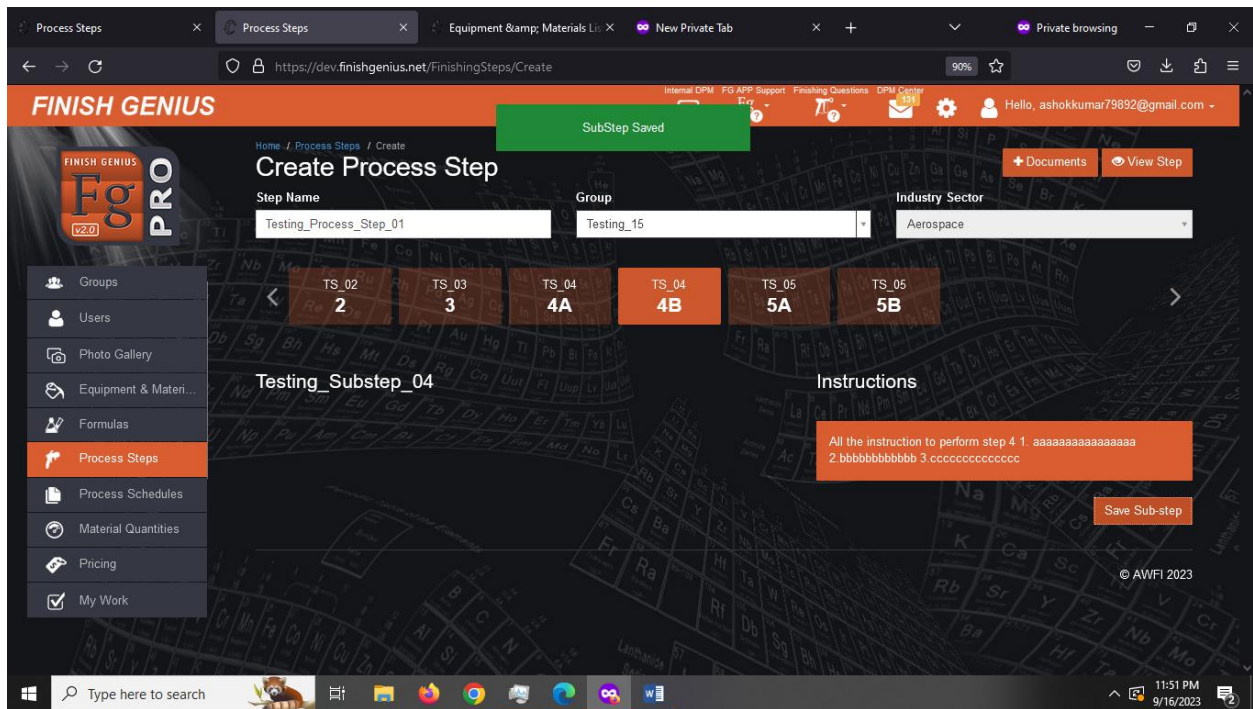

Step -2 Give the name to this Process Step. We are giving it name Testing_Process_Step_01

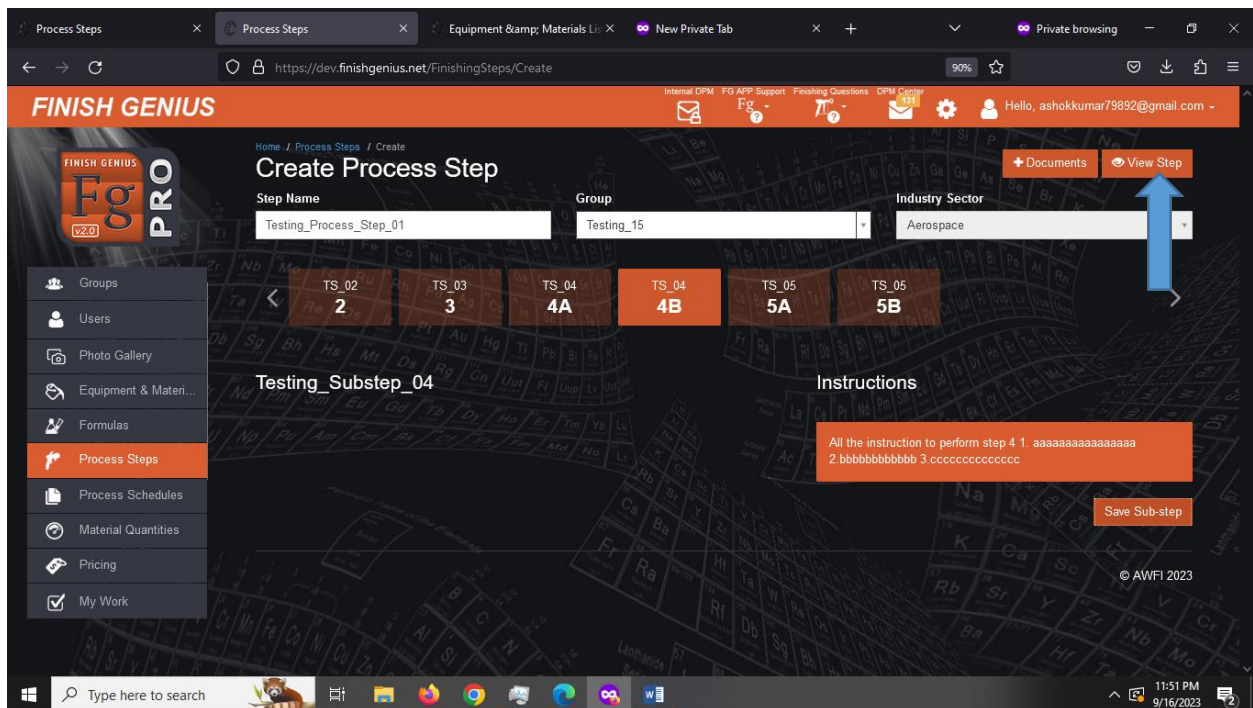

Step-3 Select sub steps you wish to execute and save them

The screenshot shows the 'Create Process Step' page in the Finish Genius application. The 'Step Name' is 'Testing_Process_Step_01', the 'Group' is 'Testing_15', and the 'Industry Sector' is 'Aerospace'. A row of substep buttons (TS_02 2, TS_03 3, TS_04 4A, TS_04 4B, TS_05 5A, TS_05 5B) is displayed. The 'Testing_Substep_02' button is highlighted. The 'Instructions' field contains the text: 'All the instruction to perform step 2 1. aaaaaaaaaaaaaaaaaa 2.bbbbbbbbbbbb 3.ccccccccccccccc'. A 'Save Sub-step' button is visible at the bottom right of the instructions area.

The screenshot shows the 'Create Process Step' page in the Finish Genius application. The 'Step Name' is 'Testing_Process_Step_01', the 'Group' is 'Testing_15', and the 'Industry Sector' is 'Aerospace'. A row of substep buttons (TS_02 2, TS_03 3, TS_04 4A, TS_04 4B, TS_05 5A, TS_05 5B) is displayed. The 'Testing_Substep_03' button is highlighted. The 'Instructions' field contains the text: 'All the instruction to perform step 3 1. aaaaaaaaaaaaaaaaaa 2.bbbbbbbbbbbb 3.ccccccccccccccc'. A 'Save Sub-step' button is visible at the bottom right of the instructions area.

Conclusion

[Note: Process Step has directly dependency on sub steps setup]

1. Checking all the process steps are same in prod and dev environment

Process: Randomly checked 5 clients all the process steps are same in prod and dev

Status: Successful

2. Industries for which we can create process steps are as follows

1. Aerospace
2. Automotive
3. Construction
4. Food
5. Heavy Manufacturing
6. Marine
7. Wood

3. Create New Process Steps

3.1 Creating sub step setup

Status: successful for both user and admin

3.2 Create Process steps, View Process Steps, Copy Process Step, Bulk Copy Process Steps

Status: Successful
